### Why go exclusive?

When listing exclusively with PANAMIZE REALTY for a minimum duration of 12 months, you will receive a unique 360° virtual tour around your property free of extra charge. This service is commonly only available for luxury apartments sales in Panama City, if at all. You will be part of an exclusive club of real estate owners in Panama, to enjoy a real virtual tour similar to Google Street View, accessible to a worldwide audience. Why does this matter?

A virtual tour significantly increases interest for your property, potential buyers can 'walk' your estate from thousands of KM distance almost as if they were on site. This significantly increases chances to sell, while at the same time reduces visits to your property that ultimately may not turn into a sale.

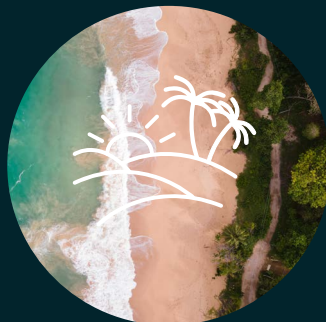

## Ready to sell?

If you own land, an island home, a resort or BnB, and you plan to sell it, you should contact us here in Bocas. We will be happy to offer you state-of-the-art real estate marketing services at competitive rates and support you to ensure your property goes online fast!

The onboarding process to our platform includes a visit of your property, the creation of professional drone and onsite imagery, a professional description of the situation on site in 3 languages, as well as the study of legal documents. Exclusive contracts receive the bonus of an exclusive virtual tour free of charge, a truly unique feature here in Bocas.

Your property will be displayed on our website, social media and across Google Search and Bing in target geographies worldwide, combined with various other channels based on a professional marketing strategy to maximize property exposure worldwide and in Europe particularly.

We pre-select potential buyers and arrange showings for hot leads only. We assist with communication, translation and accompany the legal process upon completion of your sale.
